**The EUDR compliance
SaaS solution designed
for SMEs**

EU Deforestation Regulation (EUDR) - 2023/1115

- The **EU Deforestation Regulation (EUDR)** imposes **due diligence obligations** about deforestation analysis on companies that import or produce specific raw materials and derived products.
- The EUDR covers **7 commodities and over 300 derived products**, limited to the customs codes in Annex I of the regulation, in order to ensure that products placed on the EU market have not contributed to forest destruction.
- Deadlines:
 - **30 December 2026 (Large/Medium-sized Enterprises)**
 - **30 June 2027 (Small/Micro Enterprises)**

7 Regulated Commodities

Cattle

Cocoa

Coffee

Palm oil

Rubber

Wood

Soy

EUDR Roles – Definitions

1

Operator

Places EUDR products on the EU market for the first time, or exports them. Performs full due diligence and files the DDS.

2

Downstream Operator

Handles products with already-compliant inputs.
Keeps DDS reference numbers; reacts to substantiated concerns.

3

Trader

Sells EUDR products already placed on the EU market.
Minor obligations (record-keeping).

4

MSPO

Micro/Small Primary Operators in low-risk countries. One-off Simplified Declaration instead of full DDS.

Around 90% of EUDR Operators are SMEs.

Operator SMEs must implement comprehensive due diligence, representing the main target for simplified SaaS solutions.

Problem

EUDR imposes heavy compliance burdens on European SMEs with severe penalties for non-compliance.

Regulatory Complexity

Due diligence process costly and time consuming

Upcoming deadlines

30 December 2026 (Large/Medium-sized Enterprises)

30 June 2027 (Small/Micro Enterprises)

Severe Penalties

Penalties of up to 4% of annual turnover, goods blocked at customs, suspension of commercial activities

Solution - MyEUDR

MyEUDR is a **SaaS platform designed to help SMEs** comply with the EUDR Regulation in a simple and cost-effective way.

✓ **Automatically collects** mandatory data (Art. 9).

📍 **Generate DDS** in accordance with Annex II.

🛡️ **Suggests mitigation** actions (Art. 11).

📊 **Assess the risk** (Art. 10).

🗄️ **Publish and archive** reports for 5 years (Art. 12).

💻 **Simple interface** for SMEs

Integrated Satellite Technologies

Sentinel-2

Copernicus/ESA

10m resolution | 5 days freq. | Global coverage

Recurring satellite images to monitor changes in land and vegetation.

Dynamic World

Google/WRI

AI Deep Learning | 9 land cover classes | Near Real-time

Identifies land use (forests, water, urban areas, crops) in near real time.

CCDC

NASA/USGS

Time-series | Change detection | 30 m resolution

Landsat time-series (NASA/USGS) analysis that highlights abnormal variations, distinguishing them from normal seasonality.

GLAD

U. Maryland

Weekly alerts | ~30m resolution

Alert system that quickly reports new episodes of deforestation.

Business Model & Pricing

TIER 1 · OPERATORS

PRIMARY

Full DDS — end-to-end

€10–20k / yr

- Importers from standard/high-risk
- Full SaaS: data, risk, DDS, monitoring
- Primary target (~90% are SMEs)

TIER 2 · DOWNSTREAM

Passive obligations

€5–8k / yr

- Keep DDS reference numbers
- Record-keeping, alerts, 5-yr archive
- Lighter platform

TIER 3 · MSPO

Simplified Declaration · post-MVP

€2–3k / yr

- Micro/small primary, low-risk
- One-off simplified declaration
- Lightweight onboarding

Add-on professional services — €80–150/h · setup · supply-chain mapping · audits · training

Go-to-Market Strategy

Phase 1

Q4 2025 – Q3 2026

Setup & MVP

- Setup & MVP
- Market analysis
- Customer Discovery

Phase 2

Q3 2026 – Q4 2026

Beta-testing

- Launch of beta version with core features
- 3 pilot customers

Phase 3

2027 - 2028

Scaling

2027

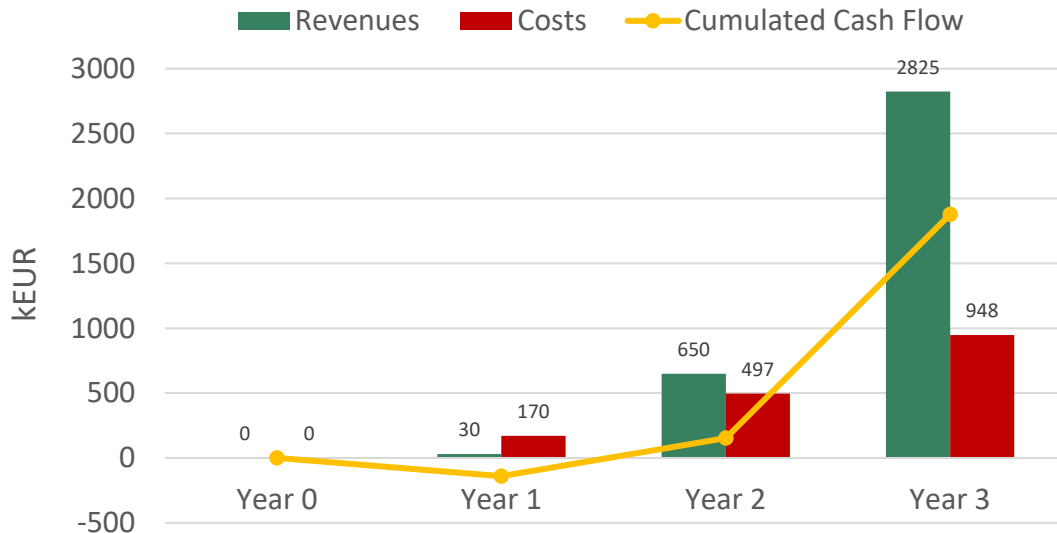

- Multilingual expansion
- Agentic AI feature

2028

- 20-30 Italian SMEs
- ESG modules (CSDDD, CSRD...)

Channels: Direct Sales | Trade Associations | Districts and Consortia

Financial Projections

Key Assumptions:

- ✓ ARPU €12-15k (increasing with consulting upsells)
- ✓ Gradual customer acquisition
- ✓ Churn <10% (high retention for compliance solutions)
